Art Unit: 1652

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-4, drawn to a method for modulating function of eukaryotic peptidyl transferase center, classified in class 435, subclass 15.
- II. Claim 5, drawn to a method of treating a virial infection by administering the drug that affects the eukaryotic peptidyl transferase center, classification unknown depending on the not identified drug.
- III. Claim 6, drawn to a method of treating HIV infection with sparsomycin and anisomycin, classified in class 514, subclass 79.
- IV. Claim 7, drawn to a method for treating a disease associated with a nonsense mutation in a gene modulating the function of eukaryotic peptidyl transferase center, classification unknown depending on the not identified drug.

Inventions are different from each other for the following reasons.

Inventions I -IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are four methods having different steps and effects. The methods are not disclosed as capable of use together.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1652

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C. F. R. paragraph 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filled petition under 37 C.F.R. paragraph 1.48 (b) and by the fee required under CFR paragraph 1.17(h).
